About Us

Enforcement Bailiffs Ltd provide a bespoke national service to its clients assisting with Enforcement, Debt Recovery, Investigation and Litigation support for Solicitors, Property Companies, Landlords, Industry, commerce and the general public. Our business is run from two offices Darlington in the North and London.

Our team is led by Andy Coates who is an award winning Private Investigator and has been a Bailiff/Enforcement Agent since 1988. As well as providing all the usual services you would expect. The company provides investigation and enforcement training services to the legal, financial and local government sectors along with industry and of course the general public.

Our Ethos

We firmly believe that having a single recovery approach to each case is not productive as each debtor is an individual and different so each debt needs to be collected or enforced with that in mind. We therefore tailor make each collection strategy to suit your needs. This gives us a much greater success than most of our competitors and why our clients keep coming back. We do not have a call centre mentality and aim to give that personal service to clients via our highly qualified and experienced management team.

We follow through each action taking your debt from Placement to Conclusion with Legal Action if required.

**Certificated Enforcement
and Recovery Agents
with
Nationwide coverage**

You can run but you can't hide
